## EXPERIENCE

### QUALITY CONTROL MANAGER

**DoD Contractor - Facilities Management / 2012 - Present**

- Implemented, directed, and coordinated the quality assurance program and quality control activities of assigned site contract.
- Ensured the inspection and verification of completed contracted work that meets the contractual requirements and established standards through personal performance and direction of subordinates.
- Prepared contract required deliverables, primarily the Quality Control Plan and other documents assigned such as Sustainability Plan and Site Safety Plans.
- Assessed product and equipment capabilities and specifications to establish service delivery standards and proposed quality expectancy of completed work.
- Prepared and completed assigned reporting duties by internal and contractual requirement as well as administration of the inspection and reporting database that will be used on the contract site.

### QUALITY CONTROL COORDINATOR

**DoD Contractor - Facilities Management / 2011 - 2012**

- Monitored, inspected and evaluated completed work to ensure service process meets contract standards.
- Created reports of quality control inspections and analyzed data to determine if any changes in the service process are necessary. Developed and implemented quality improvement activities and policies.
- Coordinated activities of workers engaged in inspecting and evaluating services in order to control quality of services and to ensure compliance with standard operating procedure and contract requirement
